

TOOLBOX TALKS

A HEALTHY WORKSITE

Toolbox Talks are designed to promote safety discussions and best practices on the jobsite. To see more Toolbox Talks, please visit hollandcs.com/toolboxtalks.

THE FACTS

- Many illnesses can be contracted from poorly maintained facilities due to bacteria, viruses and mold growth
- Accumulations of waste and trash can attract vermin and insects
- A clean working environment promotes positive morale

CLEANING AND INSPECTION

- Bathroom facilities should be disinfected and cleaned regularly; Personal Protection Equipment (PPE) should be worn when cleaning
- Lunchrooms, tabletops, counters and other eating areas must be kept clean and sanitized
- Storage areas and processing units such as refrigerators, stoves and microwave ovens must be kept clean and sanitized
- Equipment cabs and workstations should be clean, well-maintained and free of debris
- Hand washing stations should be clean and available
- Trash should be collected on a regular basis
- A regular inspection of all areas should be implemented to ensure a healthy workplace
