## HOW TO CLEAN LARGE EQUIPMENT WINDSHIELDS

### USE PROPER TOOLS AND EQUIPMENT:

- Use drive through wash stations when accessible
- Make use of long-handled squeegees while standing on the ground or designated access system while maintaining adequate support
- Use access system platforms and handrails that provide adequate support to perform the task
- Make use of tie-off points and other fall protection
- Do not stand on areas of the machine that are not intended to be used as an access system (e.g., fenders) to clean windshield
- Do not stand on ladders to access the windshield
